Option 1 (RA-HT-IR)

Audio/Video Package

For use with your learnable remote controls

(1) infrared receiver

receives IR signals from universal and learnable remote controls

(1) IR remote control

create and recall up to 4 lighting scenes in your home theater

(4) 600W dimmers

replace existing dimmers or switches to control individual lights in each room

(1) cordless tabletop master control

turn system lights on and off from anywhere in your home

(1) RF signal repeater

ensures perfect signal communication between all system components

Option 2 (RA-HT-RS232)

Touchscreen/PC Package

Includes all of the same components as Option 1, except the infrared receiver and remote.

Add one RS-232 interface in place of the two infrared components.

(1) RS-232 interface

communicates with touchscreen/computer-based systems

Satin finish palette snow (SN), biscuit (BI), eggshell (ES), taupe (TP), midnight (MN), blue mist (BT), limestone (LS), stone (ST), desert stone (DS), terracotta (TC), ochre (OC), hot (HT)

How RadioRA works

RadioRA uses radio-frequency signals to communicate between dimmers and controls. Each system has a unique digital code to ensure the reliability of your system.

RadioRA packages offer turnkey lighting control solutions. The system installs easily with no rewiring, and can be easily expanded at any time.
